Level I Activity

This activity presents an overview of parent mentoring for families and/or professionals with little to no knowledge of or experience with the topic

**Session is
Free Of Charge**

Learning Objectives:

1. Find out about Family to Family Connections—How families who have a child with health needs can find support through connecting with other families who've experienced a similar situation
2. Learn about the Parent Mentor model at Packard Children's Hospital in Stanford, California
3. Identify benefits of parent connections for both children's hospital staff and family members
